

I find listening to the traffic and weather on XM-Radio very useful and helpful in my travels. If you force XM-Radio to remove this feature, then I (and other XM-Radio subscribers) would have to wait for the local radio stations to broadcast any travel problems and weather problems. This part of the service broadcasts local AMBER alerts for missing children. If you remove this service, then local AMBER alerts will no be broadcast on XM-Radio. You (the FCC) have told both satellite companies (XM and Serious)
